

Tatami

The most advanced technical solution for martial arts. Designed to absorb heavy impacts and gradually restore energy. "Bouncing" does not occur, due to the elastic properties of the materials used in the Air Flooring System technology.

- **Tatami 20 mm:** Designed for fast, fluid and safe movements in Karate, Taekwondo, Kung-Fu...
- **Tatami 30 mm:** A higher shock absorbency capacity for heavier falls in Judo, Aikido...
- **Durotami:** Designed for professionals and competitions. The higher density and hardness enables greater fluidity of movements.
- **Tatami Kids:** The safest option for children in martial arts areas, or children's play areas within the sports facility.

Dimensions	100 x 100 cm 39 3/8" x 39 3/8"	100 x 100 cm 39 3/8" x 39 3/8"	100 x 100 cm 39 3/8" x 39 3/8"	50 x 50 cm 19 11/16" x 19 11/16"
Hardness DIN 53505	30° Shore A	30° Shore A	40° Shore A	30° Shore A
Fire Reaction EN 13501-1	Efl (opc. Cfl)	Efl (opc. Cfl)	Efl (opc. Cfl)	Efl (opc. Cfl)

ANTI-SLIP AND ANTI-BLOCK

The Pavigym surface allows a level of adherence which eliminates slipping without blocking the foot during jumps or turns. The floor temporarily deforms at the point of pressure to give lateral support. Therefore, whatever the angle of the movement, the floor will compensate accordingly to avoid injury.
